At foot of the return should be detailed all items of establishment sanctioned, but not yet incurred.

The date of Government order first given is that of the last general revision of the revenue establishment of the district, but the tahsil named was transferred from another district, of which the establishments were revised at a different date. In the Collector's office (which is not shown in this sample), too, there have been two changes since the general revision; an additional clerk has been sanctioned, and the treasurer's pay has been raised; the orders will be quoted against each of the two appointments, but when a new general revision shall have taken place, only the number and date of the order confirming it need be cited.

A personal allowance should be stated on a separate line immediately below the pay of the officer who received it, the Government order sanctioning it being quoted in the first column.

The rule about entry of Government orders may be stated generally thus: the general order is to be entered once only, any other order will be entered against every entry which it supports.

Further instructions for filling up the form are contained in Article 55.

A separate column on each side will be assigned to each account, wherein the daily gross receipt and gross charge will be entered from the personal ledger. Thus there will be but one single line in this register for the transactions of all personal ledger accounts each day, and its gross totals will give the figures to pass into the cash book. A page of foolscap has probably breadth enough for nine such accounts; if there be more than one page can accommodate, either the two sides may be separated into different parts of the same volume, the same columns being carried across both pages, or more than one register may be opened, and the totals of the second, third, etc., carried into separate columns of the first.

The columns could no doubt be more compressed, and so would leave space for a continuation of the account. In one province columns are added, showing the *name* of the remitter or payee, and the object of the transaction: these details are only for the convenience of the administrator of the account, and are open to objection in a mere banking pass book, but need not be objected to.

Personal Ledger Account with _____ *Sub-Treasury.*

[illegible]

The column of "Payment at sub-treasury" is provided under "Orders issued" in order to give space for marking off paid orders and ascertaining whether the total of the orders outstanding agrees with the balance on the books. The balance month by month (the difference between the sums of the two columns of daily totals) should be carried forward to the new month to the column of daily total under "Orders issued." Under "Orders paid," the entries will be made in the order in which the paid orders are received back from the sub-treasury without reference to the period of issue, and the total will be agreed with the total charge in the sub-treasury account; the payments will at the same time be marked off in the issue columns from the original paid orders. The orders may be numbered in a general series for the whole district, but those on each sub-treasury must also be numbered in a separate annual series. The column "value how received" is intended for marks denoting cash or transfer.

Instructions. :

- I. Opening balance should represent the amount of coins held both in Sadar and Sub-Treasuries and shown in the Cash Balance Report of the previous month.
- II. Amount received both at Sadar and Sub-Treasuries in transactions with the public (Arts. 582 to 582-C., C. A. C.) or native states (Art. 585, C. A. C.). Coins detected in good coin remittances from other treasuries should be shown in this column and not in column III. - IV. Represents the totals of columns I, II and III.
- V. This column should show coins remitted either to the Mint or to the Central Treasury as "Uncurrent and Withdrawn" coin remittance.
- VI. In some provinces withdrawn coin is transferred to the Currency Department before being remitted to the Mints. This column should show all such transfers.
- VII. This represents the difference between the amounts shown in columns IV, V and VI and should agree with the figures shown in the Cash Balance Report of the month to which the statement appertains.

v. (a) The different rates (vide Arts. 582 to 582-C., 584 and 585, C. A. C.) at which light-weight silver coins are received should be given on the reverse, the tale and total value of each kind of coins being entered only in the "Remarks" column.
